Product Selection Considerations

Is a diaphragm seal required?

A diaphragm seal should be considered if the medium is corrosive or the medium contain solids that could clog the gauge.

Are there any temperature extremes to take into account?

High process temperatures from steam or other hot media need to be known and temperature rating of the gauge considered for such applications. Liquid filling of gauges exposed to ambient temperatures below freezing need special formulated fill to keep the fill in a liquid state.

Will there be heavy pulsation or vibration in the application?

Liquid filling or additional protection should be considered

Will the gauge be utilized in an indoor or outdoor application or outside?

Gauge will need to be properly protected from indoor or outdoor ambient temperature and the environment in proximity to the gauge exterior needs to be known to choose the correct case material

POA = Price on Application

Other Diaphragm Seal Styles

Trerice offers various styles of diaphragm seals. Because of their special nature, these diaphragm seals must be priced on application:

- In-Line Threaded
- Saddle-Welded
- Drop-In Welded

Diaphragm Seals

Mini & Compact Diaphragm Seals (Diaphragm and Process Housing Material)

Model No.	Connection Size	Flushing Connection	316SS S
W205	01, 03	No	\$137.00
W305	01, 02, 03, 04	No	\$239.00
W306	01, 02, 03, 04	Yes	\$346.00

Sanitary Diaphragm Seals (Diaphragm and Housing Material)

Model No.	Tri-Clamp Size	316SS S
W472	1½"	\$314.00
W472	2"	\$301.00

Fill and Mounting Charges (Price includes fill fluid and mounting of standard bourdon tube pressure gauge.)

Thermowells

Other Bimetal/Sensor Thermowells and Exotic Materials

Trerice offers various styles of Bimetal/Sensor thermowells. Because of their special nature, these thermowells must be priced on application:

- Heavy Duty with Tapered Shank for High Pressure Applications
- Socket-Weld Style with Stepped or Heavy Duty Tapered Shank
- Weld-In Style with Tapered Shank
- Flanged Style with Straight or Heavy Duty Tapered Shank
- Van Stone Style with Straight Shank
- Sanitary Style with Stepped Shank

Trerice offers Brass, 304 Stainless Steel and 316 Stainless Steel as standard thermowell materials. Exotic material thermowells are priced on application:

- Carbon Steel
- Carpenter 20
- Hastelloy B
- Hastelloy C
- Incoloy 800
- Inconel 600
- Monel
- Nickel
- Titanium

Protective Caps for Test Wells

Item Number	Description	Price

(Add price of all features to Model price to determine total list price.)

Controllers

L84000 Series Electric Contact Controller

Model	Switches	Price
L84000	1 Switch	\$2,167.00
L84100	2 Switches	\$2,364.00
L84200	3 Switches	\$2,561.00
L84300	4 Switches	\$2,757.00

Electric contact controllers are furnished with thermal system B01/B02/B05 and 5 ft. of capillary.

For other thermal systems or longer capillary lengths (5 ft. increments only), please add the price from the table below.

Ranges (-100 to 100°F), (50 to 700°F), (-70 to 40°C) and (10 to 370°C), add \$237.00 list extra.

L84000 Series Thermal Systems

Bulb and Capillary Style	Thermal System		Additional Capillary Tubing	
	Code	Price	Code	Price per Foot
Union Connection	B01	No Extra	BB	\$17.75
	B10	\$510.00	SS	\$22.75
Adjustable Union Connection	B02	No Extra	BB	\$17.75
	B04	\$510.00	SS	\$22.75
Plain Bulb	B05	No Extra	BB	\$17.75
	B06	\$433.00	SS	\$22.75
Teflon Covered Bulb	B08	\$376.00	TC	\$33.00
	B07	\$825.00	TS	\$54.75
	B15	\$286.00	AC	\$57.50
Union Connection with Spiral Armor	B16	\$712.00	AS	\$63.75

Electric contact controllers are furnished with 5 ft. of capillary. Longer lengths are sold in 5 ft. increments only.

Replacement Thermal Systems

Item Number	Actuation	Thermal System	Price
L84000TS	Liquid	B01	\$840.00

Replacement thermal systems are furnished in style B01 with 5 ft. of capillary. For other thermal systems or longer capillary lengths (5 ft increments only), please add the price from the table above.
