

Ohio Pipe, Valves and Fittings & Automated Valve and Equipment

Your source for quality industrial piping products.

Since 1929 the Ohio Pipe companies have been providing highest quality pipe, valves, fittings and support services throughout the region. It starts with understanding your needs and our commitment to delivering the right product at the right time and at the right price. We stock a full range of welded, seamless, stainless steel and PVC pipe in sizes thru 24". You will also find a complete line of fittings, flanges, couplings, and valves in various sizes and materials. We feature quality manufacturers: Anvil, Apollo, Bonney Forge, Powell, Spirax Sarco, Vogt, Ward, Weldbend, and more. The Ohio Pipe Bending fabrication shop offers custom pipe cutting, threading, grooving, and fabrication on site.

Our competitive advantage is enhanced by the Automated Valve and Equipment division,

where we not only provide proven quality valves and instrumentation, but outstanding actuation services. Our customers rely on our sales and engineering team's ability to provide automation designs that meet the most difficult specs. We're highly experienced in systems that handle elevated temperature, pressure, corrosion, and/or abrasive conditions. And, when it comes to ball, butterfly, gate, control, and relief valves we are the trusted expert. Our shelves are stocked with American Valve, Sharpe, Asco, H.O. Trerice, Valvcon, Westlock, Promotion, and VRC.

For over 80 years the Ohio Pipe companies have supported power plants, steel mills, oil and gas, chemical plants, water and wastewater facilities, OEMs, and new industrial process construction. Give us a call and find out what we can do for you.
